Hello! I am a front-end developer and I open to work. I like to learn and try something new, that is why I choose a front-end. It allows to growth and improve skills

WORK EXPERIENCE

2021-2022 - Redev Company - Frontend Engineer

Creating single-page React apps (using Ant design) with authorization and form validation, navigation between pages (using react-router-dom), interaction with API (axios), work with state management (redux thunk/redux toolkit).

2019-2022 - Institute Belgosproect - Project engineer, estimator engineer

I am hard working person with experience at different software, communicating with people and teamwork, negotiating and resolving conflicts, experience in multitasking, ability to handle pressure and meet deadlines, adapt quickly to new conditions at work and I have a positive attitude to challenges and opportunities.

EDUCATION

2021 - Computer Academy "SHAG"

Course HTML/CSS

2021 - Online Courses

JavaScript + React + Redux

2014-2019 - Belarussian National State Univercity

Department of Civil Engineering

Specialization Engineer-real estate specialist

MY PROJECTS

I create a YouTube Clone App with authorization, ability to find a video and watch it and every user can save his requests as favorites. (In this project I use React, React Hooks, Redux, YouTube API, React-router-dom, axios, Formik, Ant design).

YouTube Clone (Github Link)

Also I made online shop with adding items to cart, send information to backend (In this project I use React, React Hooks, Redux-toolkit, React-router-dom, axios, React Content Loader)

Online Shop (Github Link)

HARD SKILLS

- JavaScript
- React
- Redux
- Redux-thunk
- Redux-toolkit
- Axios
- HTML5
- CSS3
- REST API
- GitHub
- React hooks
- React-router-dom
- React-content-loader
- Fetch
- Ant-design
- Formik
- Figma
- Prettier

SOFT SKILLS

- Teamwork
- Willingness to learn
- Creativity
- Logical thinking

LANGUAGES

English: B1
